

All for you

There was a time when we were care-free
It was a time when we were young
We used to sit and listen to those faded songs on the radio

And the static emotions and lost signals
Made you the theme song of my life
I never realized that you were holding on to this melody

(PC)

'Cause you never thought that I was happy
And I never knew that you were sad

I can't believe that - it's - YOU!
You're the only one, yeah you!
It is the only way
And I'll wait for you
And I'll wait for you
And I'll wait ...

And now that I've fallen ... - off - the - walls
Would you help me set things right?
So - I - can be the sun and shine for you

And all of the episodes and phases
Shimmer a light so pure
Cause I want you
And I need you
And I

I can't believe that - it's - YOU!
You're the only one, yeah you
It is the only way
And I'll wait for you
And I'll wait for you
And I'll wait ... I can't believe that it's - YOU!
You're the only one, yeah you
It is the only way
And I'll wait for you
And I'll wait for you
And I'll wait ...

(solo)

YOU!
You're the only one, yeah you
It is the only way
And I'll wait for you
And I'll wait for you
And I'll wait ...
