

LET IT GO

I've been workin all the way to the top
I had my mind to be the cream of the crop, yeah
But night falls and like a chemical chain
I let my head down in the gutter again

It's all right, it's ok
It's the same old song and dance
Get it right, take a chance
Get this party started!

Hey babe
Are you ready for the 'BIG SHOW'?
Got to rock,
It's the only way to roll
Last call is a quarter past day light!
We've got to let it go!

Wakin up with my old whiskey in hand
You turn me over like a bucket of sand
Wake me up because I'm ready to roll
I found my rock, and now I'm out of control

It's all right, it's ok
It's the same old song and dance
Get it right, take a chance
Get this party started!

Hey babe
Are you ready for the 'BIG SHOW'?
Got to rock,
It's the only way to roll
Last call is a quarter past day light!
We've got to let it go!

(solo)

Hey babe
Are you ready for the 'BIG SHOW'?
Got to rock,
It's the only way to roll
Last call is a quarter past day light!
We've got to let it go!
