

## **SOMETHING ABOUT YOU**

One more look in your eyes,  
Makes me want to see, how we've faded  
And if you open those eyes,  
You don't want to see, that I'm jaded  
Help you reveal in yourself  
That we can believe in ourselves  
I've got this feelin that.....  
All I've got to say is:

[CH]

This is good morning to you,  
Don't want to be that drained  
There is something about you  
I can't explain

(vamp)

I don't want to be somber and blind  
Cause you don't want to look me in the eye  
I'll tell you something bad - no more running away.  
Help you reveal in yourself  
That we can believe in ourselves  
If opposites collide:  
We ain't going no where

We've got something special inside our lives  
there is only one thing left to say:  
Together we can make that change  
And all I want to say is:

[CH]

This is good morning to you,  
Don't want to be that drained  
There is something about you  
I can't explain

(solo) / (Break down)

C

This is good morning to you,  
Don't want to be that drained  
There is something about you yeah!!!!

(outro)
