

## WAIT FOR TOMORROW

I asked you to leave me  
You asked me to dance  
I told you no way  
That you had no chance  
I wanted to live  
You wanted to cry  
Start over again  
And that's a lie  
You wanted to be someone  
I can't fake it. I can't see you again

[CH]

Can't wait for tomorrow  
And this sense of sorrow  
You're bringing me down  
Can't keep you around  
Can't wait for tomorrow  
Wait for tomorrow  
You're bringing me down  
Can't go there with you

If I grow old  
You'll tell me to dream  
I'll ask you to pray  
It's all make believe  
Let's throw it all away  
Don't want to imagine  
The words that you speak  
I feel so awake  
When I'm not missing you  
So hard to escape ... Your prison cell  
I can't fake it. I can't see you again

[CH]

Can't wait for tomorrow  
And this sense of sorrow  
You're bringing me down  
Can't keep you around  
Can't wait for tomorrow  
Wait for tomorrow  
You're bringing me down  
Can't go there with you

(SOLO)

[CH]

Can't wait for tomorrow  
And this sense of sorrow  
You're bringing me down Can't keep you around  
Can't wait for tomorrow  
Wait for tomorrow You're bringing me down  
Can't go there with you
